DETAILED ACTION

Allowable Subject Matter

Claims 1-3, 5-21, 23-32 are allowed.

The following is an examiner's statement of reasons for allowance: prior art does not teach nor render obvious a monolithic microwave integrated circuit that has, in combination with other limitations, a group delay equalizer circuit integrated with the amplifier circuit to compensate for the group delay variation verses frequency characteristic of the amplifier circuit to frequencies above 50 GHz; neither does it have a group delay equalizer circuit comprising a plurality sections, each section having a different group delay response, the plurality of sections being cascaded to form an overall composite group delay response.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
